ATTRACTIVE BULK-WRAPPED PACKAGING

Great Product • Superb Merchandising

Replacement Vent Registers are excellent movers and an important category in your store, but take up too much horizontal & vertical space. Your sales-per-square-foot are severely limited with the usual vent-in-a-box packaging. RVD focuses on developing categories and merchandising to *free up space* to make your shelf space more productive. This new range is available in tan and white, dampered and undampered, metal and plastic. Nine sku's in clean, attractive bulk-wrapped packaging. But the real kicker is our rack! It holds 24 vent registers and utilizes the "depth" dimension of your store fixtures. Simply slot them in and watch them sell. The result: **67% space reduction!** So now you can repurpose that shelf space for other opportunities.
